01. ■ About Us

About Us

Founded in 2006, Gain Yum Foods Co. Ltd. (“Gain Yum” or “the Company” for short) is headquartered in Pingxiang City, Jiangxi Province. Covering an area of more than 300 mu and a total construction area of 180,000 square meters, the Company has a workforce of more than 2,000 and is a modernized snack foods producer that integrates R&D, production, and sales. Gain Yum went public for Chinese investors in 2020. Currently, the Company boasts a wide range of product portfolio covering nuts and roasted seeds and nuts, bean and dry fruit sets, preserved fruits and candied fruits, puffed snacks, and more.

In 2019, Gain Yum invested RMB 500 million in two installments to build Gain Yum Foods (Anyang) Co. Ltd. with an area of 328 mu, a total construction area of 140,000 square meters, and more than a dozen fully-automated standardized production lines. It mainly produces rice crackers series, chip series, rice crispy series, thin crispy cookie series, etc., seeking to offer consumers a great experience with unique flavors, high quality and convenience.

The Company has a marketing center located in Hangzhou, Zhejiang Province, and marketing offices throughout the country. Centering on the Company's strategic goals, efforts are being made to build a sound marketing system and a brand cultivation system, in order to continuously enhance the visibility and influence of its brand.

With more than ten years of development, “Gain Yum” has established itself as one of the leading snack brands in China committed to passing on the traditional Chinese snack culture!

Brand Story

Over the past 10-plus years, the Company has started from scratch in the small town of Pingxiang on the border of Hunan Province and Jiangxi Province to expand presence across the country and even go global.

When the Company was founded in 2006, it learned from extensive market experience to choose to first launch products such as green beans, broad beans, and sunflower seed kernels. Its initial offerings featured new flavors such as crab roe flavor, wasabi flavor, and Taiwanese-style marinated meat flavor, which were later complemented by a dozen of other flavors such as saucy gravy flavor, garlic flavor, and spicy flavor, showing its commitment to offering consumers with ready-to-eat and better-tasting products.

The Company has kept abreast of the times by enriching its product portfolio and inventing new flavors, such as flavory nuts and freeze-dried nuts, striving to produce multi-flavored snacks with superb taste to cater to the needs of consumers in different scenarios.

02. Our Strengths

Production Base

The Company self-developed a fully automated bean-based snack production line, the first of its kind in China

The Company has built two modernized production bases, with production capacity capable of supplying the whole country, automated production processes, and traceability of food safety.

By promoting a standardized, automated and large-scale production of seed products, the Company has significantly improved production efficiency, product quality and food safety.

The southern production base is located in Pingxiang City, Jiangxi Province, covering an area of more than 300 mu, with a plant area of 180,000 square meters.

The northern production base is located in Anyang City, Henan Province, covering an area of 328 mu and a total construction area of 140,000 square meters.

Cutting-edge Technologies

119 national patents for the entire production process

Gain Yum boasts **119** national patents for its entire production process, with a high degree of self-assembly and self-design of product equipment, forming a unique category of the snack industry.

With superior modern production techniques, the Company is able to revitalize each of its conventional products to produce exceptional products suitable for modern consumer tastes and consumption scenarios, giving a new lease of life to its range of flavored nuts and roasted seeds and nuts products.

R&D Capability

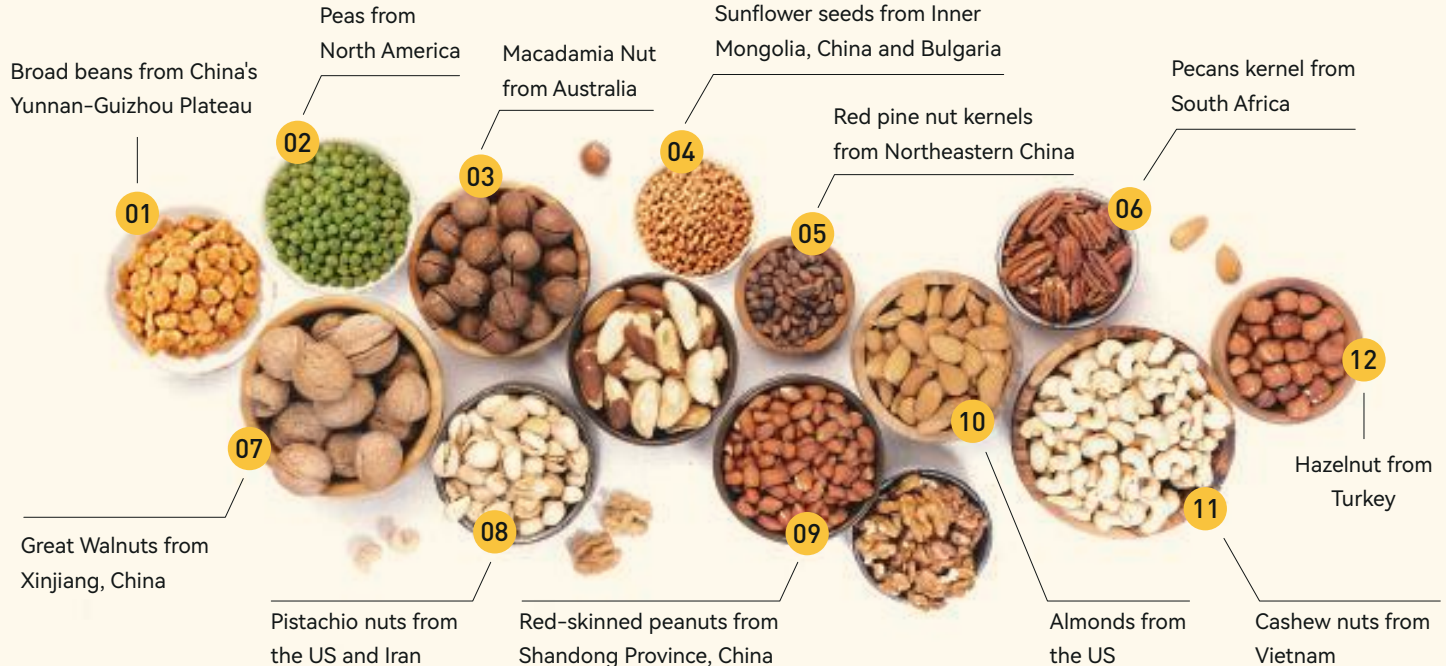

Industry-leading R&D capabilities

enable continuous flavor innovation

The Company has been stepping up its investment in product R&D for three consecutive years, with **183** R&D professionals and an investment of RMB **22.5 million** in R&D.

It boasts an experienced and high-caliber management team and R&D team, and has obtained more than **160** intellectual property rights of various types through independent R&D and technological innovation.

Premium Ingredients Sourced Globally

Superb Techniques and Craftsmanship

The Chinese people's passion for cooking stems from their love for life and their pursuit of delicious food.

Pairs of skillful hands transform the gifts of nature into delicious food. Cooking is a ritual of reverence for nature, gratitude for life, and love and respect for human beings.

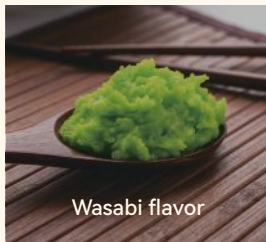

With 19 years expertise in nuts, Gain Yum has discovered a brand-new culinary miracle in the world of flavored nuts. We select fresh, high-quality nuts, slow-bake them with dual-temperature process to preserve their original flavor and texture, and optimize the formulas to optimize the mix and application of seasonings for thousands of times, in order to provide an unprecedented taste feast for nut lovers.

Flavor Innovation

A wonderful experience of the tongue comes from the collision and fusion of quality ingredients.

With 19 years of exploration and research on roasted seeds and nuts, Gain Yum aims to discover creative flavors of snacks that are more suitable for Chinese tastes and delve further into the field.

In the field of seed snack, Gain Yum is the pioneer that introduced new flavors like crab roe flavor and wasabi flavor, which were later complemented by sauce beef flavor, garlic flavor, spicy flavor, and a dozen of other flavors. Among which, Broad Beans Crab Roe Flavor, Macadamia Nut Wasabi Flavor, and other products are well-received.

Wasabi flavor

Salted egg yolk flavor

Garlic flavor

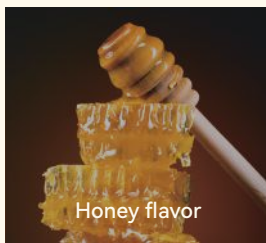

Tomato flavor

Spicy

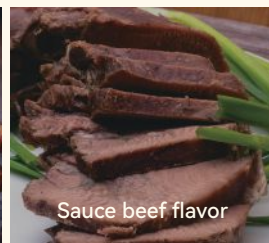

Steak flavor

Honey flavor

Crab roe flavor

Sauce beef flavor

We believe that the inheritance and innovation of Chinese food has just started...

Upgraded Quality

**Strictly in compliance with
HACCP and ISO9001 standards**

Gain Yum has established a strict quality control system in accordance with HACCP and ISO9001 standards, requiring authoritative test reports for raw and auxiliary ingredients sourced, to ensure the quality and safety of the products at source. In the production process, Gain Yum has standardized formulas, processes, procedures and testing to maximize the safety and stability of the products and ensure controllable product quality.

Rigorous and sound product traceability system

Gain Yum has established a rigorous and sound product traceability system to monitor the whole process from the purchase of ingredients to the sale of finished products, and has implemented batch number management for ingredients and finished products, to ensure that the products are traceable back to their original state, and realize standardized control of the whole process.

Complete quality control system

Gain Yum has developed a sophisticated quality control system to ensure that each batch of incoming ingredients and every batch of products meets the quality standards, through inspection, acceptance and control of external packaging materials, ingredients, production process and delivery of finished products from the warehouse.

Sales Volume

Annual Sales

45,0000,0000+

packs *

The total sales of Gain Yum in 2022 far exceeded 4.5 billion packs, and the data has been verified by the Economic Development Bureau of Pingxiang Economic and Technological Development Zone

Sales Channels

Gain Yum has established a complete business layout across all offline and online channels, covering the whole country.

32

Provinces (municipalities and autonomous regions)

300+

prefecture-level cities

1200+

dealers countrywide

Regarding offline channels, we have cooperated with major supermarkets such as Costco, Freshippo, Walmart, Carrefour, RT-Mart, convenience store chains such as Family Mart, 7-11, Rosen and hundreds of thousands of retail outlets. Meanwhile, we have been actively expanding our online channels, establishing close partnerships with a number of B2C e-commerce platforms, such as Tmall, JD, and VIPS, and strengthening close cooperation with various B2B online retail distribution platforms, such as Alibaba LST.

Overseas Presence

Since we started expanding actively into overseas markets in 2023, we have realized a substantial growth in our performance

300 million

sales volume in **Vietnam** in 2024, 50% of which was realized online

About 50 million

sales volume in **Thailand** in 2024

About 20 million

sales volume in **Malaysia** in 2024

Offline Exhibitions

After Gain Yum was launched into the market, it has promoted its products by targeting the main consumer groups and through the elevator media in more than 30 first and second tier cities nationwide, realizing circle marketing and bringing its products to tens of thousands of households.

To fully meet consumer demand, the Company keeps strengthening product innovation and R&D. By enriching our product portfolio and strengthening channel building, we have secured a strong market presence and brand visibility. The Company has displayed its special products such as Chinese grain snacks and flavored nuts to Chinese and foreign clients by participating in a number of influential specialized and comprehensive exhibitions such as the China Food & Drinks Fair (Chengdu Fair in spring and Shenzhen Fair in autumn) and the SIAL (Shanghai). Many of our flavored nut products were widely recognized by clients from North America, Southeast Asia and the Middle East at the exhibitions, enhancing the brand's international influence.

At the same time, by launching co-branding campaigns in social media with a number of well-known Chinese brands, such as Busy for You, Freshippo, Leyuan, and Haobashi, the Company has enhanced communication with young consumers and shaped the brand as “authentic and delicious, trendy and interesting”.
